

## ISMETA Professional Member PLUS includes Professional Liability Insurance United Kingdom, European Economic Region & South Africa

ISMETA has negotiated special group rates for high quality professional liability insurance for our members. All new and existing professional members are invited to consider choosing the Plus Membership Category to receive this added benefit of Liability Insurance.

This membership category which includes the insurance benefit is NOW AVAILABLE for our members practicing and living in the United Kingdom, the European Economic Area and South Africa. [See full list of country availability here.](#)

Due to specific insurance laws in specific countries, the Plus Membership for our members living in different parts of the world will be slightly different in both process and coverage. For members living in these regions of the world this will be a two - part process: ISMETA membership will allow you to receive a discounted rate when you apply for insurance through our partner BGI Insurance. The process is simple; first become a Professional Practitioner with ISMETA and then we will send you the ISMETA BGI Application for your special reduced rate. Please Note: There is a separate fee to be paid to BGI. ISMETA has negotiated a 98.37 GBP rate for the UK and 111. 37 EUR, for the European Economic Area and South Africa. If you request additional coverage the price will go up.

With ISMETA's Insurance, you may receive up to:

£/€5 million indemnity for Professional Indemnity, Medical Malpractice and Public and Products Liability. [See Full Details Here.](#)

For Existing ISMETA members in the United Kingdom, European Economic Area & South Africa: Choose this new category by emailing us at [info@ismeta.org](mailto:info@ismeta.org). We will easily switch you over to the PLUS Membership.
